OBJECTIVE

A Motivated and detail-oriented Junior Software Engineer with hands-on experience in designing and developing scalable web applications and backend systems. Skilled in modern web technologies, database management, and collaborative software development. Proven ability to contribute effectively within team environments while managing multiple tasks with strong attention.

WORK EXPERIENCE

Junior Software Engineer
MakTech Solution Limited *September 2025- Present*

- Developed and maintained backend systems and core application features.
- Managed databases, optimized queries, and ensured data reliability.
- Implemented scalable features based on project requirements.
- Integrated AI functionalities into business applications.
- Managed deployment, hosting, and server configurations.
- Built CI/CD pipelines to streamline development and deployment.

SOFTWARE ENGINEER
Adplay Technology Limited *February 2025 - August 2025*

- Maintained and enhanced existing project features and backend functionalities using C# and ASP.NET.
- Managed MSSQL databases, including query optimization, indexing, job scheduling, and large data handling.
- Collaborated with senior developers and team members to solve technical challenges effectively.
- Participated in debugging, testing, and production issue resolution.

BACKEND DEVELOPER
GENERATIVE AI | (REMOTE) *September 2024 - January 2025*

- Worked remotely as a full-stack developer, collaborating with team members through Slack.
- Developed and maintained web application features using React.js, Node.js, and PostgreSQL.
- Collaborated with cross-functional teams to implement new features and resolve technical issues.
- Participated in debugging, testing, and improving overall application performance.
- Contributed to project development following Agile and remote team workflows.

EDUCATION

- **Bachelor of Computer Science and Engineering**,
  American International University-Bangladesh (AIUB) Year 2021-2024 | CGPA:3.82
- **Higher Secondary Certificate,** Nawab Siraj-Ud-Dola Govt. College Year 2019 GPA: 4.67
- **Secondary School Certificate,** Natore Govt Boys High School Year 2017 GPA:5.00

SKILLS

- **Frontend**: HTML, CSS, TypeScript, React, Next.js, Bootstrap, TypeScript
- **Backend**: JavaScript, Python, C++, C#, Asp.Net, PHP, Node.js, Prisma ORM
- **Database**: MySQL, PostgreSQL, Oracle, Microsoft SQL, MongoDB
- **Cloud & Services**: Firebase, AWS EC2, Cloudinary, Mailgun, SendGrid
- **DevOps & Tools**: Docker, Git, GitHub, Linux, Coolify, Postman

PROJECTS

1) Courier Service System (LIVE)

Technology: Express.js, React.js, PostgreSQL, Prisma ORM, SMTP, STRIPE, VPS

- Developed a scalable management with role-based access for Admin, Manager, Customer, and Driver.
- Built RESTful APIs for parcel booking, delivery management, tracking, and operational workflows.
- Implemented secure authentication, real-time parcel tracking, email, and notification systems.

2) Elyxa AI – Smart Productivity & Tracking Platform (LIVE)

Technology: Express.js, React.js, PostgreSQL, AI Integration, OpenAI

- Developed an AI-powered productivity platform for tracking daily, weekly, and monthly goals.
- Implemented AI-based chatbot and smart plan generation features for personalized user assistance.
- Built automated notification and email systems to improve user engagement and workflow consistency.

3) Online Shop Management (ASP.NET) (Source Code)

Technologies Used: C#, MVC Framework, MS SQL Server Management

- Built a full-featured e-commerce web application for managing products, categories, and inventory.
- Implemented a 3-tier architecture (PL, BLL, DAL) for clean separation of concerns and maintainability.
- Developed admin features for product CRUD operations and category management.

4) Real Estate Investment & Property Management Platform (LIVE)

Tech Stack: Express.js, React.js, Prisma ORM, PostgreSQL, SMTP (Email System)

- Built a full-stack real estate platform for property buying, selling, investment, and management.
- Implemented a role-based system for Buyer, Seller, Investor, and Builder with secure workflows.
- Developed property listing, investment tracking, and mortgage/renovation modules.
- Integrated SMTP email system for marketing and notifications.

5) Essa-Hub — Women's Sports Community Platform (LIVE)

Tech Stack: Nest.js, React.js, Prisma, PostgreSQL, Pay-Stack

- Developed a full-stack women's sports community platform with events, clubs, and a service marketplace.
- Implemented a multi-role access system (User, Admin, Provider, Coach) with RBAC security.
- Built event management, community discussions, a booking system, and an admin dashboard.

EXTRA-CURRICULUM ACT AND CERTIFICATION

- Academic Dean Award (AIUB).
- Academic Scholarship (AIUB).
- Cisco Networking Academy Cisco Networking Academy Issued Jun 2021.
- Udvash Math Olympiad Certificate (2019).

RESEARCH PUBLICATION

Wrist Net: A Novel Deep Learning Approach for Detecting Fractures in Wrist X-ray Images

IEEE International Conference | 2025 (LINK)

- Presented research on deep learning-based wrist fracture detection from X-ray images.
- Contributed to AI model development and medical image analysis.
